

Online Order/Purchase

How do I get my product fixed?

Every product sold through MLN will come with a manufacturer warranty. You have the choice to contact the manufacturer directly for warranty claims, or you can contact us using [this form](#) so that we may assist you in organising the warranty claim.

For technical support where a fault doesn't exist, the manufacturer is usually the best option, as they created the product and can usually offer the most information relating to the product and its use.

If you are having difficulty obtaining the manufacturer warranty contact details please contact the online store using [this form](#), and one of our representatives will be able to advise you of these details.
